Art Unit: 3653

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 4, 5, 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4 line 1, the language "the edge" lacks antecedent basis.

In claim 4 line 2, the language "the middle portion" lacks antecedent basis.

In claim 22 line 2, the language "the recess" lacks antecedent basis.

Claim 23 appears to be redundant since it depends from claim 20 and both claims merely define the medium cassette as being incorporated into a feeding apparatus.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 11 through 13, 16, 19-21 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Jessop.

Note the second member 340 having a tapered forward end portion (un-number extend from the forward end of 340 to element 335) so that the first member 290 abuts an end of the stack and the tapered forward end portion slides under the stack.

5. Claims 4, 5 and 22 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Claims 3, 6-10, 14, 15, 17 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David H Bollinger whose telephone number is 703-308-1113. The examiner can normally be reached on Monday through Friday from 9:00 am to 5:00 pm.
